

Circulation - Greater Orlando Distribution

Bright Feats prints a total of 190,000 publications a year, of which 80,000 publications are printed to serve the Greater Orlando area. We specifically target families with children with special needs in Orange, Seminole, Lake, Osceola and northern Polk County.

We partner with the public schools to send more than half of our publications home with ESE students in the public schools.

The rest of our publications are distributed by locations listed in our directory including specialized pediatric physician offices, therapy centers, private schools serving children with special needs, hospitals and community support groups and centers.
